

## Please do not cut funding for our student's school

The Pennsylvania Cyber Charter School (PA Cyber) is the premier online K-12 educational provider for students and their families in combining the best technology, personal instruction and rigorous curriculum with highly qualified teachers. PA Cyber is a public charter school with over 10,000 students from 490 out of 500 school districts in Pennsylvania.

### Our family has chosen PA Cyber because of the following reasons:

- ✓ PA Cyber uses curriculum that offers extensive choices to students, which is approved by the Pennsylvania Department of Education.
- ✓ The school provides each student with a personalized education plan, a certified teacher, and a state-of-the-art computer, printer and subsidized Internet connection.
- ✓ PA Cyber also provides additional on-line tutorials, remedial services and assessments as needed to address the personal educational needs of each specific student.
- ✓ The student body has a diverse group of students, including motivated, independent learners, gifted students, students who travel (e.g. athletes, performers, etc), home-schooled students, students not reaching their potential in a traditional classroom setting, working students, young mothers or fathers, disabled or ill students, college-bound students and credit-deficient students.
- ✓ PA Cyber students enrolled for at least one year increase their standardized test scores in reading and math.
- ✓ PA Cyber offers opportunities for students to socialize with each other through extracurricular activities, family gatherings, field trips and other get-togethers throughout the year in locations across the entire commonwealth.
- ✓ **Most importantly, PA Cyber is dedicated to the success of all students who had not been reaching their fullest potential.**
